

TRUST GENERATIVE AI LEGAL NOTICE

1.- Right to Information

We inform you that Trust Generative AI (hereinafter, the “*Platform*”) is owned by Making Science Digital Marketing, S.L., with VAT number B87763207 and registered office at Calle Lopez De Hoyos 135, Piso 3, 28002 Madrid (Spain) (hereinafter, **MAKING SCIENCE**).

Access to and/or use of the Platform confers the status of user, and by accessing and/or using it, you accept this Legal Notice.

The user (hereinafter, the “**User**”) can contact MAKING SCIENCE via the following email address: protecciondedatos@makingscience.com.

2.- Use of the Platform

The User will be responsible for their use of the Platform. The Platform may provide access to a multitude of texts, graphics, drawings, designs, photographs, multimedia content, advertising, and information (hereinafter, “**Content**”) belonging to MAKING SCIENCE or third parties that the User may have access to.

The User agrees to make appropriate use of the Content and services offered through the Platform and, by way of example but not limitation, agrees not to use them to:

- (i) Engage in illegal activities, activities contrary to good faith, or activities against public order.
- (ii) Cause damage to the physical and logical systems of the MAKING SCIENCE Platform, its suppliers, or third parties.
- (iii) Introduce or spread computer viruses or any other physical or logical systems that are capable of causing the aforementioned damage.
- (iv) Attempt to access, use, and/or manipulate data from MAKING SCIENCE, third-party providers, and other users.
- (v) Reproduce, copy, distribute, allow public access through any form of public communication, transform, or modify the Content unless authorized by MAKING SCIENCE.

- (vi) Remove, hide, or manipulate the Content subject to intellectual or industrial property rights and other identifying data of such rights of MAKING SCIENCE or third parties incorporated into the Content, as well as technical protection devices or any information mechanisms that may be inserted into the Content.

The User should be aware that the materials contained in this Platform may not reflect the most recent legislative or jurisprudential status on the issues analyzed. Additionally, these materials may be modified, developed, or updated without prior notice.

MAKING SCIENCE will have the right to investigate and report any of the aforementioned behaviors in accordance with the Law, as well as to cooperate with the authorities in the investigation of such actions.

MAKING SCIENCE may temporarily suspend access to the Platform without prior notice for maintenance, repair, updating, or improvement operations. However, whenever circumstances permit, MAKING SCIENCE will inform the User in advance of the planned date for the suspension of services. MAKING SCIENCE is not responsible for the use that Users may make of the Content included in the Platform.

3.- Intellectual Property

All intellectual property rights over the content and graphic design of this Platform (including, but not limited to, images, sound, audio, video, software, or texts; trademarks or logos, color combinations, structure and design, selection of materials used, computer programs necessary for its operation, access, and use, etc.) are the exclusive property of MAKING SCIENCE or a third party who has authorized MAKING SCIENCE for their use. Therefore, MAKING SCIENCE has the exclusive right to exploit such content and graphic design.

Thus, pursuant to the provisions of Royal Legislative Decree 1/1996, of April 12, approving the Revised Text of the Intellectual Property Law, and Law 17/2001, of December 7, on Trademarks, as well as any complementary legislation on intellectual and industrial property, the reproduction, transmission, adaptation, translation, distribution, or public communication, including making available or any other form of commercial exploitation and/or modification of all or part of the content of the Platform, is prohibited without the prior express authorization of MAKING SCIENCE.

MAKING SCIENCE does not grant any license or authorization for the use of any of its intellectual and industrial property rights or any other property or right related to the Platform and/or its services or contents.

The User agrees to respect the intellectual and industrial property rights owned by MAKING SCIENCE. In this regard, the reproduction and temporary storage

of the contents of the Platform are permitted as long as it is strictly necessary for the use and viewing of the Platform from a personal electronic device.

The legitimacy of the intellectual or industrial property rights over the content provided by the Users is the sole responsibility of the Users, who will respond to any third-party claims arising from the illegal use of the content of the Platform.

4.- Data Protection

The use of this Platform may require Users to provide personal data. MAKING SCIENCE processes this type of information in accordance with applicable legislation and collects it in its Privacy Policy.

5.- Liability and Warranties

MAKING SCIENCE declares that it has taken all necessary measures, within its capabilities and considering the current state of technology, to ensure the proper functioning and absence of viruses and harmful components in its Platform.

However, MAKING SCIENCE cannot guarantee:

- (i) the continuous availability of the Content and Services at all times;
- (ii) the absence of errors in such Content or the correction of any defects that may exist;
- (iii) the truthfulness, completeness, or updating of the data provided by Users, with the User ultimately responsible for providing accurate and updated data;
- (iv) the uninterrupted operation of the Platform or computer failures, telephone malfunctions, disconnections, delays, or blockages caused by deficiencies or overloads in telephone lines, data centers, the Internet system, or other electronic systems occurring during its operation;
- (v) the absence of viruses or other harmful components despite taking appropriate measures to prevent this;
- (vi) any damage caused by third parties who breach or violate MAKING SCIENCE's security systems.

MAKING SCIENCE may temporarily suspend access to the Platform without prior notice for maintenance, repair, updating, or improvement operations. However, whenever circumstances permit, MAKING SCIENCE will inform the User in advance of the planned date for the suspension of the Services.

MAKING SCIENCE is not responsible for the use that Users may make of the Content included in the Platform.

6.- Duration and Modification

This Legal Notice will remain in effect indefinitely. MAKING SCIENCE may make changes to the conditions specified herein, which will take effect from the moment of their publication.

MAKING SCIENCE may delete, add, or change both the Content and the services it provides, as well as the manner in which they are located or presented. The conditions in effect are those published at the time the User accesses the MAKING SCIENCE Platform.

Access and/or use of the Platform will be understood as acceptance by the User of this Legal Notice and its conditions and, if applicable, any changes made to them.

7.- Safeguard and Interpretation

This Legal Notice constitutes an agreement between each of the Users and MAKING SCIENCE.

If a competent authority declares any provision to be illegal, invalid, or unenforceable, such a declaration regarding one or more clauses will be made without prejudice to the validity of the remaining clauses.

The fact that MAKING SCIENCE does not require strict compliance with any of the provisions of this Legal Notice does not constitute or can be interpreted in any way as a waiver of its right to require strict compliance in the future.

8.- General Information

MAKING SCIENCE will pursue the violation of this Legal Notice, as well as any improper use of its portal, exercising all civil and criminal actions that may correspond in law.

9.- Notifications

MAKING SCIENCE may make appropriate communications through the email address provided by the Users in the registration forms or through any other means provided in the User's contact details.
